

## Life Threatening Events Associated with Pediatric Patients in Sports

2<sup>nd</sup> Annual LEAPS Conference on February 6, 2010

Hear leading experts in pediatric cardiology, sports medicine, orthopedics and others from UCI, St. Joseph's and CHOC share the latest evidence based knowledge on the prevention, epidemiology, and mechanisms of medical emergencies, injuries and sudden death in pediatric sports activities.

For parents, high school and youth sports coaches, school administrators, athletic directors, team physicians, athletic trainers, student athletes, school nurses and allied healthcare providers, school district risk managers.

What we can do to prevent, intervene and learn from medical emergencies and sudden death incidents in Orange County high school and youth sports. Topics include:

- Pre-season Physical Exams & Screening
- Sharing Student Medical Info & Records
- Use of AED's in Schools & CPR Training
- Critical Incident Review – What can we learn?
- Support for Team Physicians and Athletic Trainers
- Sports Medicine in High Schools
